an interval of one day close upon his announcement that the Chinese emperor had decreed the acceptance of the Pekin agreement, Minister Conger cabled the State department, under date of Pekin, January 1. that the next step had been taken and that the ministers had been notified formally no only that the agreement was accepted by the Chinese government, but that that government felt able to guarantee a performance of the conditions imposed. It was apprehended that there would be much difficulty in settling the important subject of indemnities, and the rearrangement of the commercial treaties between China and the powers, which is provided for only in general terms in the agreement, is expected to present equal difficulties in the arrangement of details. It is absolutely essential to harmonious relations in the future that there shall be no discrimination in the making of these treaties. If by covert arrangement, one power is to obtain commercial advantage over the others, the result will be the cause of dissatisfaction. Therefore, it is within the bounds of probability that the outcome of the negotiations under this sub-head of the agreement touching commercial arrangements will be the framing of something like a general convention which may be signed collectively or singly by the powers, but which will insure uni-

form treatment to all. The Chinese government's guaranty of its ability to perform the acts called for by the agreement is now to be followed by the prompt arrest and punishment of the Boxer leaders and sympathizers who were named in the decree of September 25, as follows: Prince Chwan, Prince Yih Hi, secondary princes Tsai Lien and Tsai Ying, Prince Tuan, Duke Tsai Lan and the president of the censorate, Ying Nien, assistant grand secretary of the civil board, and Chao Chu Chiao.

The Tribune will tomorrow say: The new league struck a snag in George Lennon of St. Paul and has not yet completed plans made necessary by the unexpected state of affairs in the twin cities. Without St. Paul the Western association does not want Minneapolis. It is more than likely that the Burnham organization will arrange a new circuit, leaving out both of the Minnesota cities. Application has been made by the Toronto club of the Eastern league, it is said, for a franchise in the new league, but this the magnates refuse to confirm. Toronto would not be a desirable addition without Buffale to pair with it in the schedule and in breaking the jumps. But the Western association cannot plan off Buffalo, which is at present a member of the Western league. It will be necessary for the association people to await the action of the American league concerning the dropping of Buffalo or Indianapolis before deciding on Toronto's application.
